### USE OF THE ACHILLES LOGO

Thank you for your recent communication enquiring about the use of the ACHILLES logo. Whilst we encourage our suppliers to use the logo in their marketing literature while they are fully registered with us, we would like to ensure that there is commonality on its use and therefore offer the following conditions and guidelines:

1. The use of the Achilles logo/name is allowed only for companies that have a valid qualification in the Achilles Joint Qualification System.
2. The Achilles logo/name may be attached to letters, invoices, brochures, specification sheets (only for products/services for which a valid qualification exists) and other marketing material, as for instance web sites.
3. The Achilles logo/name may not be used on products/samples or in such a way as to mislead someone to believe that the product itself is qualified/approved.
4. The Achilles logo/name may not be used in such a way as to make the impression that the Achilles qualification implies a *certification* of the company's QA system.
5. The Achilles JQS logo must be printed in original colours (red = PMS485, blue=PMS280), or in black. Printing parts of the logo is not allowed.
6. The logo will be forwarded upon receipt of written acceptance of the above conditions.
7. The use of the Achilles logo shall cease once the qualification in the Achilles Joint Qualification System for one reason or another has come to an end.

Please do not hesitate to contact us if further clarification proves necessary.

Yours faithfully  
Achilles Information Centre

The above conditions are accepted:
