

## How do I register product and service categories in this new structure?

At your next update in the questionnaire you will be asked to choose products and services in AUCS. As you can see from picture 1 we have linked known Sellihca categories with new AUCS categories. This is called mapping.

Illustration 1

### Products & Services

Please map the product to the one or several proposed AUCS Code, or select another AUCS Code. You can also select keywords if exist.

#### Sellihca Code

1.15.9 Cable / Line Joints and Fittings (High and Low Voltage)  Edit

#### Proposed AUCS Codes

Select	AUCS Code	Keyword	Mapped
<input type="checkbox"/>	 3.7.6 Underground Cable Joints, Terminations & Jointing Materials - Below 1kV		▼
<input type="checkbox"/>	 3.7.7 Underground Cable Joints, Terminations & Jointing Materials - 1kV to 19kV		▼
<input type="checkbox"/>	 3.7.8 Underground Cable Joints, Terminations & Jointing Materials - 20kV to 99kV		▼
<input type="checkbox"/>	 3.7.9 Underground Cable Joints, Terminations & Jointing Materials - 100kV to 199kV		▼
<input type="checkbox"/>	 3.7.10 Underground Cable Joints, Terminations & Jointing Materials - 200kV & Above		▼

This means that on the basis of your present choice of Sellihca categories we suggest the corresponding AUCS-categories. There are more AUCS categories than Sellihca categories, so in most cases we suggest more than one AUCS-category. You can accept our suggestions or you can choose different categories - it is totally up to you. But for every Sellihca category you must choose at least on AUCS category. We ask you to consider your choices thoroughly and avoid choosing more categories than necessary to cover your products and services.

When you have chosen one AUCS category you will need to also choose keywords. As can be seen from picture 2 these keywords help to explain your product or service in more detail, so that users (buyers) can easily see what your company offers.

We recommend that you pay attention to your choice of keywords. Users (buyers) in Sellihca will now be able to search using both AUCS categories and keywords.

You must also choose corresponding AUCS categories when you add more Sellihca categories.

Best regards

**Klaus Kræmer, Product Manager**
